Find Peace of Mind with APRIMA

An EHR That Follows You. Chart your notes by chief Complaints, problems, or previous visits for fast, intuitive documentation.

Adaptive Learning. Machine learning means that as you work, the technology learns your style without special programming required.

Intelligent Navigation. That virtually reads your mind, as the system presents clinically relevant findings based on presenting symptoms, diagnosis, and your preferred treatments.

A Single Solutions. Medisoft Practice Management (PM) is fully integrated with APRIMA EHR.

No Network Connection. No Problem. Our Unique Anytime, Anywhere Replication technology lets you work anywhere, anytime, with or without a connection. Hospital? Patient's home? Nursing Home? Your Home? Wherever you are, you can work just as you would in the office, then the system automatically synchronizes information when connectivity is restored.

Goes Where You Go. Specially designed to take advantage of tablet hardware, our Anytime, Anywhere access technology, including the APRIMA Mobile smartphone app, makes the most of touch screens, smaller tablets, and even mobile phones.
